Ventilated Refrigerated Display Case With Led White 620x670x670

Description

Elegant and sophisticated counter-top ventilated refrigerated display case with an exclusive and particularly captivating design conceived to take the concept of display to the highest levels, making your products look like jewellery. Looking at it from all angles, the display cabinet, thanks to its exclusive design, will embellish, giving a touch of luxury and exclusivity to everything you want to enhance. State-of-the-art design with square, angled lines and a large opening with 90-degree rear doors for easy use and cleaning. Perfect for displaying gourmet products such as cheeses, caviar, oysters, wine, champagne, desserts, exotic fruits, with the aim of always giving maximum prominence to the product on display. Spectacular assembly with no visible fasteners on the outer structure to enhance design and facilitate cleaning. The front and side windows are tempered and made with a double-glazing system, as are the doors, in order to always maintain perfect visibility of the product on display, avoiding any form of condensation. The resulting thermal insulation also results in extraordinary energy savings. Accessory intermediate shelf support (optional). Maximum opening angle for easy handling of all types of products. The absence of a drain hole eliminates any installation problems. Powerful refrigeration unit with Danfoss compressor. Digital thermostat with adjustable blue LEDs .

Dimensions

Dimensioni esterne	620x670x670 mm
--------------------	----------------

Technical data
