

Cod: 6706

Compact refrigerated display case front/rear opening with bottle shelf 1015x620x950h mm

Description

Extremely versatile display case with ventilated refrigeration designed to adapt to any type of space or furnishing, both in the countertop and floor-standing or undercounter concept, with maximum exploitation of display space. The front, top and side windows are made with a double-glazing system, as are the sliding doors in order to maintain perfect visibility of the displayed product at all times, avoiding any form of condensation. Height-adjustable shelves with individual integrated lighting with double row of LEDs and excellent storage space. Flat top surface for space utilisation. Self-closing doors. Display case side profiles illuminated with white LEDs or with RGB control (optional).
