

Cod: 1870

Wood-fired oven 13 pizzas

Description

Prefabricated wood-fired oven, with a capacity of 13 pizzas and the possibility of producing 195 pizzas/hour, built with vibrated refractory materials with a high alumina content, rustic front with flat face bricks. the oven is characterised by a large refractory mass that generates a strong thermal flywheel effect with consequent wood saving, so as to guarantee rapid and uniform cooking thanks to its excellent thermal stability. Thermal insulation is guaranteed by the use of mineral fibre with high insulating power. Hourly production: 195 pizzas.
