

Cod: 1872

Wood-fired oven 10 pizzas with Mosaic decoration

Description

Prefabricated wood-fired oven with Mosaic decorations, with a capacity of 10 pizzas and the possibility of producing 150 pizzas/hour built with vibrated refractory materials with a high alumina content, a rustic front with a flat front. The oven is characterised by a large refractory mass that generates a strong thermal flywheel effect with consequent wood saving, so as to guarantee rapid and uniform cooking thanks to its excellent thermal stability. Thermal insulation is guaranteed by the use of mineral fibre with high insulating power. Hourly production of pizzas: 150.
