

Cod: 1877

Rotary Wood-fired Oven with separate combustion chamber with Mosaic decoration 5 Pizzas

Description

Rotating wood-fired oven with separate combustion chamber with Mosaic decoration, with a capacity of 5 pizzas and the possibility of producing 75 pizzas per hour built with vibrated refractory materials with a high alumina content, rustic front with exposed bricks with a flat front. the oven is characterised by a large refractory mass that generates a strong thermal flywheel effect with consequent wood saving, so as to guarantee rapid and uniform cooking thanks to its excellent thermal stability. Thermal insulation is guaranteed by the use of mineral fibre with high insulating power.
