

Cod: 7763

Chrome-plated abs centrifuge with braked motor power 400 W

Description

Self-cleaning centrifuges ideal for extracting juice from fruit and vegetables that cannot otherwise be squeezed. Equipped with braked motor with temperature probe and screw-mounted basket. Special speed to keep the vitamins in the juice intact guaranteeing optimum production, as it automatically separates and expels the waste. Steel/nylon squeezing part.

Dimensions

Dimensioni esterne	270x550x550 mm
--------------------	----------------

Technical data

Frequenza	50/60 Hz
Materiale	chrome-plated abs
Peso	14 kg
Potenza Elettrica	0.4 kW
Voltaggio	230 V
