

Cod: 7772

Aluminium capsule soft ice cream machine 20x22x63h cm

Description

Special appliance designed to instantly prepare soft ice cream using ready-made capsules of various flavours. Equipped with a special plunger and a glass with a special hole, suitable for containing and supporting the capsules. Ideal in any establishment but especially in beach kiosks or on street carts selling ice cream thanks to the manual system of use that does not require any electrical outlet.
