

Cod: 7865

## Double glass-ceramic fry top with smooth counter tops 5 KW

### Description

Professional contact cooking systems with glass-ceramic surfaces, suitable for cooking a wide range of different foods such as: toast, sandwiches, meat, fish, vegetables, eggs, etc. High cooking quality thanks to the uniform distribution of heat produced and the use of glass-ceramic cooking surfaces, a material that offers high resistance to thermal shock, non-stick, non-porous and therefore impermeable to flavours and odours. Wide versatility of use thanks to SHB™ Plus technology, which guarantees combined heating (by contact and infrared radiation) and the possibility of reaching high cooking temperatures (up to 400°C).

### Dimensions

Dimensioni esterne	693x654x129 mm
--------------------	----------------

Dimensioni piano d'appoggio	280x440 mm
-----------------------------	------------

### Technical data

Alimentazione	Electric
Frequenza	60 Hz
Peso	17 kg
Potenza Elettrica	5 kW
Temperatura d'esercizio	0 +400 °C
Voltaggio	230 V
