

Cod: 8516

**Juice extractor power 240 W 205x310x360 h mm**

## Description

Manufactured using Swiss technology, it is made of stainless steel and high performance for the most demanding users. Polished aluminium frame. Steel/nylon basket. Perfect centrifuge for preparing fruit and vegetable juices, as well as centrifuges for various processes in the kitchen. Ideal for bars, cafeterias and restaurants. The centrifuge has a 3.25 litre waste container, which allows continuous use. The very robust basket is equipped with stainless steel blades and strainer. It offers continuous waste removal and is equipped with a 'turbo' button, which allows the basket to be cleaned and possible vibrations of the machine to be balanced. Easy to use and clean, as a disposable plastic bag can be placed in the large waste collector. Assembly and disassembly are very simple. Its universal, air-cooled motor with a speed of 6300 rpm makes it unique and highly reliable, allowing continuous use. The top cover and waste collector are specially designed to prevent clogging during operation.

## Dimensions

Dimensioni esterne	205x310x360 mm
Dimensioni imballo	440x420x290 mm

## Technical data

Frequenza	50/60 Hz
Giri lame	6300 Rpm
Peso netto	5 kg
Potenza Elettrica	0.24 kW
Voltaggio	230 V
