

Cod: 8534

Homogeniser cutter 8 litre capacity with variable speed 286x387x517 h mm

Description

Allows you to cut, chop, mix, knead any food in seconds. Light and compact: weighs less, takes up less space. Better watertightness due to the fact that they do not require ventilation. They generate less noise: environmental improvement in the workplace. Efficiency and performance Possibility of timed programming and push-button. Reverse function, ideal for mixing products instead of cutting. 8 litre stainless steel bowl. Polycarbonate lid with built-in mixer. Depending on the purpose, optional smooth or perforated blades can be used. Robust stainless steel construction and high-quality food-grade materials: stainless steel motor block with food-grade aluminium lid. Stainless steel bowl with highly resistant polycarbonate lid. Maximum user convenience Advanced user-friendly control panel offering all information at a glance **Safety microswitches in the bowl and lid position.**
