## 6-burner gas cooker + 1/1 GN Ventilated Electric Oven + compartment with door

### Description

6-burner gas cooker + 1/1 GN electric oven + compartment with door. Stainless steel construction. Knobs in thermosetting plastic material. Heating by means of single-crown stabilised flame burners with different powers. Each burner is equipped with a safety gas cock that allows the power to be adjusted from maximum to minimum. Safety ensured by a thermocouple kept active by the burner flame. Steel top grills coated with a layer of protective material and burners with a stainless steel body and nickel-plated brass flame spreaders. Shelf grates positioned on a moulded housing with rounded edges and burners hermetically secured to the shelf for easy cleaning. Ventilated 1/1 GN electric oven and compartment with door. Removable oven rack made of stainless steel rod coated with a layer of protective material. Oven floor made of cast iron and reinforced with a series of ribs. Heating by means of special high-temperature resistant steel heating elements placed under the sole and in the baking chamber ceiling and air movement ensured by a stainless steel fan driven by a powerful electric motor. Possibility of selecting various types of heating, both static and ventilated, both diffusive heating from below and grill, and global heating. Equipped with a thermostat that allows you to adjust the temperature between 120° C and 310° C. Manually reset safety thermostat against overheating. Insulation of cooking

chamber and oven door ensured by a layer of ceramic fibre resistant to high temperatures. Height-adjustable stainless steel feet.

### Dimensions

Dimensioni esterne	1200x700x850 mm
