Cooker 6 Electric Hotplates + Ventilated Electric Oven 1/1 GN + Oven Chamber with Door

Description

Cooker 6 Electric Hotplates + 1/1 GN Ventilated Electric Oven + compartment with Door. Stainless steel construction. Moulded, double-walled oven door and sturdy handles. Thermosetting plastic knobs. Heating by means of electric round cast-iron plates. Heating element fixed to the bottom of the plate, embedded in a layer of insulating material. Each plate is equipped with a switch that allows the power to be adjusted from maximum to minimum in seven positions. Safety is ensured by a temperature limiter placed inside the hotplate. Moulded worktop with an inverted counter-buttering to ensure perfect plate seating, easy cleaning and to protect electrical components from overflowing liquids. Ventilated 1/1 GN electric oven and compartment with door. Removable oven rack made of stainless steel rod coated with a layer of protective material. Oven floor made of cast iron and reinforced with a series of ribs. Heating by means of special high-temperature resistant steel heating elements placed under the sole and in the baking chamber ceiling and air movement ensured by a stainless steel fan driven by a powerful electric motor. Possibility of selecting various types of heating, both static and ventilated, both diffusive heating from below and grill, and global heating. Equipped with a thermostat that allows you to adjust the temperature between 120° C and 310° C. Manually reset safety thermostat against

overheating. Insulation of cooking chamber and oven door ensured by a layer of ceramic fibre resistant to high temperatures. Height-adjustable stainless steel feet.

Dimensions

Dimensioni esterne	1200x700x850 mm
