Stainless steel refrigerated cabinet 1 door 600 l -2 +8 °C static

Description

The ristoattrezzature.com stainless steel one-door static refrigerator cabinet with a capacity of 600 litres has an external and internal structure made entirely of stainless steel. The refrigerator is also adjustable in height thanks to the presence of feet. The interior of the refrigerator has rounded corners to facilitate cleaning operations and thus offer practicality and hygiene in use. The anti-corrosion treatment is designed to prevent oxidation that would form as a result of the formation of frost/condensation during normal operation of the refrigerator. The cabinet has a spring-return door, key lock, door gasket that can be removed without tools, interior light, bottom with rounded corners, outer bottom and back panels in galvanised sheet metal.
