

Cod: 9228063011001

Stainless steel refrigerated cabinet 1 door 700 l -2 +8 °C ventilated

Description

The single-door stainless steel ventilated refrigerator cabinet with a gross capacity of 700 litres and a net capacity of 650 litres has an external and internal structure made entirely of stainless steel. The refrigerator is also adjustable in height thanks to the presence of feet. The interior of the refrigerator has rounded corners to facilitate cleaning and thus offer practicality and hygiene in use. Refrigeration is ventilated and therefore the cold is produced by an external evaporator with anti-corrosion treated fins. The anti-corrosion treatment is designed to prevent oxidation that would form as a result of the formation of frost/condensation in normal refrigerator operation. The cabinet has a spring-return door, key lock, door gasket that can be removed without tools, on/off switch, interior light, bottom with rounded corners, outer bottom and back panels in galvanised sheet metal.

Dimensions

Dimensioni esterne	740x830x2010 mm
Dimensioni imballo	765x855x2080 mm
Dimensioni interne	620x700x1396 mm

Technical data

Alimentazione	Electric
Capacità	650 Lt
Classe energetica	D
Frequenza	50 Hz
Gas refrigerante	R290
Materiale	stainless steel
Peso lordo	120 kg
Peso netto	127 kg
Potenza Elettrica	0.350 kW
Refrigerazione	ventilated
Sbrinamento	electric defrost
Temperatura ambiente massima	35 °C
Temperatura d'esercizio	-2 +8 °C
Termostato	electrical
Voltaggio	230 V

Standard equipment

In dotazione	3 griglie con coppie di guide
