Stainless steel refrigerated cabinet 1 glass door 700 l -2 +8 °C ventilated monobloc - FC

Description

The ristoattrezzature.com stainless steel one-door ventilated refrigerator cabinet with a gross capacity of 700 litres and a net capacity of 650 litres has an external and internal structure made entirely of stainless steel. The refrigerator is also adjustable in height thanks to the presence of feet. The interior of the refrigerator has rounded corners to facilitate cleaning operations and thus offer practicality and hygiene in use. Refrigeration is ventilated and therefore the cold is produced by an external evaporator with anti-corrosion treated fins. The anti-corrosion treatment is designed to prevent oxidation that would form as a result of the formation of frost/condensation in normal refrigerator operation. The cabinet has a spring-return door, key lock, door gasket that can be removed without tools, interior light, bottom with rounded corners, outer bottom and back panels in galvanised sheet metal.
