**Static refrigerated wine cellar 17 bottles +6 +14 °C 44,5x51x50,1h cm**

## Description

Offer your customers only the best wine stored in our **wine cellar static refrigeration 17 bottles +6 +14 °C 445x510x501h mm**. Keep your bottles of wine cool while ensuring **stability and proper display**, choose only the best for your wine cellar equipment.

This **compact** wine cellar allows you to place as many as **17 bottles on its 2 wooden shelves** designed to **maintain the ideal temperature and humidity level to enhance the taste of your wine**. You can pull them out and adjust them according to the type of wine and bottle: choose the **ideal position and display for your bottles with a touch**.

Just over 44 cm wide by 51 cm deep, the **17-bottle wine cellar for restaurants, wine shops and bars** is practical and compact. Buy it to create a **protected environment for your bottles: they will age naturally, without temperature fluctuations**.

## Design and function

Completely black and with a square design, the **17-bottle +6 +14 °C static refrigeration wine**

**cellar** is **elegant and essential**, adaptable to any working environment. **The 4 front feet are adjustable** in height. **The product's small dimensions (445x510x501h mm)** make it easy to **place** and move.

Depending on the place you choose for it, you can adjust its opening thanks to the **reversible glass door** and the **recessed handle**. Not only that, the door is equipped with a **plastic frame** and **screened glass that allows external light to filter** through, preserving the taste of more delicate wines such as whites and rosés.

The construction is solid and robust and the temperature can be adjusted via the **digital display** from **+6° to +14°C**. Keep your bottles under control at all times via the thermostat but, above all, thanks to the **integrated LED lighting** that allows clear visibility of the bottles without consuming too much energy!

## Why it is the right product for you

**Energy saving** has become an essential requirement today: the **Static Refrigeration Wine Cellar 17 bottles +6 +14 °C** is equipped with an **R600a gas** refrigeration system.

This is a completely natural source that boasts **low energy consumption and load power**, but above all **respects the environment**.

Work in a sustainable way, and save energy, by purchasing this **restaurant wine cellar**: its **quietness, free installation** and **small size** are some of the advantages not to be missed. Not only that, thanks to its innovative cooling system, **vibrations** are brought to zero, ensuring maximum stability for your bottles, for **optimal ageing**.

Choose the **17-bottle static refrigerated wine cellar for wine shops and bars** if you want to offer a quality product that is always served at the right temperature.
