Static refrigerated wine cellar 25 bottles +6 +14 °C 44,5x51x67,6h cm

Description

Bring your wine to the table at the right temperature with the **Static Refrigerated Wine Cellar 25 bottles +6 +14 °C**.

Designed to preserve intact all the organoleptic properties of the wine, this wine cellar allows you to maintain **a perfect temperature and humidity level to enhance the taste of your wine**.

By purchasing this product you will create **a protected environment for your bottles that will age naturally, avoiding sudden changes in temperature**. You will be able to comfortably and safely arrange up to **25 bottles of wine on the three** removable and adjustable **wooden shelves** according to your needs. You can choose the **ideal position and display for your bottles**.

Design and function

The elegant and essential design and the attention to detail make the **25-bottle +6 +14 °C. static refrigeration wine cellar** adaptable to any working environment. Not only that, thanks to the **4 adjustable front feet** you can also determine the height and adjust it to your space.

The **solid and sturdy construction** is a guarantee of reliability and durability, yet our **static refrigerated wine cellar 25 bottles +6 +14 °C** retains a low weight of only 27 kg. **The reversible glass door with plastic frame** allows you to customise the opening but also to store your wines in the best possible way. It is in fact equipped with **a light-shielding system that allows the external light to filter** through, preserving the taste of the wine. This is particularly important for more delicate wines such as whites and rosés.

Through the digital display, you can easily adjust the temperature from +6° to +14°C and keep it under control at all times. In addition, thanks to the **integrated LED lighting**, you will always have a clear view of the bottles without excessive energy expenditure. To keep its performance as high as on the first day, clean the wine cellar regularly. Use only targeted products that are not too acidic, and pay particular attention to cleaning the condenser.

Why it is the right product for you

Silence, free installation and compact dimensions are some of the advantages of this 25-bottle wine cellar that is also **totally ecological**. In fact, the refrigeration system uses **R600a gas**, a completely natural source that boasts **low energy consumption** and load power. Choose the **25-bottle +6 +14 °C static refrigeration wine cellar** also for its **low environmental impact** and **excellent thermodynamic performance**. What's more, **the innovative cooling system significantly reduces vibrations**, ensuring maximum stability for your wine, which will be able to rest in the right way. **If you have a wine cellar, restaurant or catering business and you want to offer a quality product that has been aged and stored optimally**, buy the **25-bottle +6 +14 °C static refrigerated wine cellar** online. You will be able to place it wherever you want without having problems with space or energy expenditure.
