**Countertop refrigerated display case 88x56,8x68,6h cm curved glass 4 sides black 160 lt 0 +12 °C**

## Description

The professional counter-top refrigerated display case from Ristoattrezzature is a kitchen appliance designed to store fresh and/or cooked products for a long time. Ristoattrezzature's professional counter-top refrigerated display case has the advantage of having four double-glazed glass panes to maintain a constant temperature inside and save on utility bills. The professional counter-top refrigerated display case is particularly suitable for delicatessens, pastry shops, bars, rotisseries or supermarkets\*\*. Easy to place, this equipment adapts to even the smallest spaces. Design and operation The design of our professional counter-top refrigerated display case is extremely practical and functional. The construction is made of black plastic and is fitted with double-glazed glass on all four sides. The front glass is curved for optimal food display and the interior lighting is LED. In this way, every detail will be visible and enhanced. The rear doors, on the other hand, are sliding to ensure easy access and closing. Refrigeration is ventilated, a system that guarantees an even distribution of cold inside. The operating temperature is easy to set between 0°C and +12°C thanks to a digital display. The external dimensions are 880x568x686 mm for a total capacity of 160 litres and a weight of 66 kg. The power supply is electric with a power of 0.16 kW and a voltage of 230 V. Equipped with 2 PVC-

coated, adjustable and removable inner shelves of 800x320 mm and 800x350 mm. Place confectionery, sandwiches, toast, sushi inside and keep the organoleptic properties of the food intact. Cleaning and maintenance To ensure optimal performance and high quality of the professional countertop refrigerated display case for restaurants, it is advisable to carry out constant cleaning. Before proceeding, it is necessary to empty what is inside, wash the grilles separately and then clean the structure and glass panes with natural products and a non-abrasive sponge. Automatic defrosting facilitates this operation and the installation of a maintenance-free condenser guarantees the longevity of your equipment. Why it is the right product for you Its compact size and versatility make the professional refrigerated counter-top gastronomic display cabinet a practical and cost-effective piece of professional kitchen equipment. With the purchase of a single product, you can meet the professional needs of different activities. Place it easily on a counter or table and adapt it to your line and space requirements, installing it freely. Choose our supermarket display cabinet if you want to ensure practical and hygienic service. Safety and aesthetics are the features that make our display cabinet an excellent piece of professional equipment. If you want to know more, consult the online catalogue and read the technical data sheet for details.
