Description

The professional counter-heated display case for fast food is a piece of equipment designed for all catering businesses that wish to keep their food warm. Particularly suitable for delicatessens, rotisseries, fast food outlets and restaurants. You can easily place the Ristoattrezzature professional hot counter display case and create a practical and functional work area. Offer your customers tasty and fragrant products with our counter-top display case dedicated to small and medium-sized businesses. Find out all the details in the data sheet. Design and function The design of the professional hot counter display case for bars and delicatessens is clean and essential. The construction is made of metal and stainless steel and is fitted with straight glass panes along all 4 sides for the best possible display of food: from first courses to sweets. The back glasses are sliding to allow easy access and the internal lighting is LED. The external dimensions of the professional countertop hot display cabinet for restaurants are 678x568x670mm, the total capacity is 120 litres and the power supply is electric with a voltage of 230 V and an electric power of 1.1 kW. It comes with 3 practical removable chrome-plated grills to ensure maximum hygiene and better management of the interior space. Easily set the operating temperature between +30 +90 °C with the graduated knob on the back of the device. Choose the

ideal professional equipment for your business and guarantee top service to your customers. Cleaning and maintenance Compact design and easy cleaning make the professional counter-top hot rotisserie display case an indispensable item for any catering business. Take care of your professional equipment by constantly cleaning every part of it, inside and out. Let's see how. To be on the safe side, remember to switch off the equipment before proceeding, then remove the food and grilles inside and start cleaning the structure with non-abrasive sponge mild detergent. Follow the same procedure for cleaning the glass. Why it is the right product for you The professional counter-top hot display case for restaurants is designed to offer minimum space requirements and high performance. Keep your customers' sandwiches, toast, pasta dishes and pies warm and tempt them with equipment that highlights your products. A compact, versatile and very practical kitchen essential. Removable internal grills and adjustable feet at the bottom adapt to every need. Ristoattrezzature offers different models of heated display cabinets for catering and different sizes. Choose the ideal size and add functionality to your restaurant. Browse our online catalogue to learn more.
