117.7x42x26.5h cm 4 gn 1/3 refrigerated white counter-top sushi display case with curved glass panes and built-in motor

Description

Your kitchen must have a **refrigerated sushi counter display case** for sushi bars, restaurants and fast food outlets. A professional piece of equipment capable of preserving the organoleptic qualities of your products for a long time.

Ristoattrezzature has a wide choice in its catalogue to guarantee efficiency and functionality. Select the ideal design and size for your catering business.

Compact design and positive temperature are all you need to ensure excellent service and offer fresh products.

Design and function

The **professional counter-top refrigerated sushi display cabinet** has a very attractive, elegant and sophisticated design. Ideal equipment for any catering business that wants to offer its

customers fresh products at all times.

The **professional counter-top refrigerated sushi display case** for sushi bars measures **1177x420x265 mm**, has a built-in motor and can hold up to 4 GN 1/3, 4 cm high, already supplied.

The display case is made of glass, the outer construction is white plastic and the rear doors are sliding so the sushi can be easily inserted and removed inside.

The curved front glass is designed for better product display at the counter. The power supply of the cabinet is electric with a power of 0.18 kW and **the refrigeration mode is static**.

The internal temperature can be adjusted from 0°C to +12°C and is ideal for storing fresh sushi. It uses the external digital display to adjust the temperature. Inside, **LED lighting** shows the product in every detail without affecting its temperature.

Cleaning and maintenance

The **professional counter-top refrigerated sushi display case** for fast food is designed to keep the organoleptic properties of the food intact, avoid contamination and be easily cleaned.

For proper cleaning, it is recommended to unplug it from the power supply, empty the display case from the provided basins and reach into every nook and cranny with **a soft cloth and a non-aggressive kitchen cleaner**.

Keep your kitchen equipment perfectly efficient with constant cleaning. **Automatic defrosting** ensures that it always operates at peak performance and without any manual intervention.

Why it's the right product for you

The **professional counter-top refrigerated sushi display cabinet** from Ristoattrezzature is the equipment designed for sushi bars and businesses that have fresh fish on the menu.

Preserve and display your products properly by choosing the ideal refrigerated display case to guarantee **high performance** and add functionality to your work area.

Its compact design and **energy class B** are its strong points. You can keep it on for as long as you need without excessive consumption (only 451 kWh per year).

Easily decide where to place your display case and guarantee impeccable service. Excellent value for money and low energy consumption make the display case a must-have for your catering business. **Professional equipment designed for small and medium-sized businesses** with intensive use.
