

Cod: 98410580021360

135.2x42x26.5h cm 5 gn 1/3 black counter-top refrigerated sushi display case with curved glass panes and built-in motor

Description

Choose our **black professional sushi refrigerated display case** to offer your customers only the best sushi.

This catering equipment ensures optimal preservation of fish at a positive temperature, giving maximum visibility to your dishes.

The **sushi display case is counter-top black with curved glass panes** to facilitate full customer viewing. Inside you can fill up to **5 GN 1/3 food trays**, which are already supplied.

Buy it for your oriental restaurant or delicatessen and you will always get impeccable performance.

Design and operation

The refrigerated sushi display cabinet has a **sleek and elegant design** that is well suited for storing such sophisticated food.

The essential, modern lines make it adaptable to any interior design context and easy to install in the room, directly on the counter. The **curved front glass**, combined with the **internal cold LED light**, is able to enhance every aspect of the compositions. The LEDs do not overheat the food and do not increase the machine's consumption.

Made of glass and a black plastic base, the equipment has a rear opening through **sliding doors**. From here the operator can easily insert and extract sushi stored in the **5 included GN 1/3 size deli trays** at a **temperature adjustable between 0°C and +12°C**.

Thanks to the **digital thermostat on the outside**, you can adjust the temperature with the dedicated buttons, and always have it under control.

The **restaurant sushi cabinet has a built-in motor** on the right, covered by the plastic part. The **refrigeration mode is direct static** and the **power supply is electric**. Voltage of 230 V, **power of 0.18 kW** and **frequency of 50 Hz**.

Regarding the overall dimensions of the **Ristoattrezzature refrigerated sushi display case**, it measures **135.2x42x26.5h** for a **gross weight of 40.5 kg**. The base is equipped with feet that ensure maximum stability on a workbench or stand.

Cleaning and maintenance

Thanks to an **automatic defrosting system**, the sushi cabinet always ensures optimal performance over time. No manual intervention is required; the machine always keeps its own evaporator clean.

The **stainless steel trays** supplied meet industry quality standards and are all **individually removable and cleanable**.

The rounded inner corners allow dirt to be completely removed with the simple use of **kitchen detergent and a non-abrasive sponge**.

Routine cleaning must be frequent in order to ensure maximum cleanliness of the inner parts of the display case and to **avoid contamination from raw fish**.

Why it's the right product for you

The **refrigerated sushi display cabinet** is a professional piece of equipment that is indispensable **for catering establishments where sushi is prepared or served at sight**. The model we propose is elegant and sophisticated in its black livery and comes fully equipped:

- **digital thermostat**
- **led lighting**
- **5 stainless steel bowls 4 cm high**.

Its dual function, display and refrigeration, will allow you to offer a product that is always at its best in terms of both aesthetics and quality. The customer can **choose directly from the display and the sushi will stay fresh for longer**.

Durability and high performance go hand in hand with the **sustainability** of the machine, which is placed in **energy class B**. The annual consumption threshold is **1546 kWh** and the **R290**

refrigerant gas used is a **100% natural** source. You will have **excellent thermodynamic performance** while respecting the environment.

Choose from among the sushi refrigerated display cabinets the one that best suits your needs, browse the catalogue or write to us for advice

Dimensions

Dimensioni esterne	1352x420x265 mm
