Three-phase mechanical electric pizza oven glass door capacity 6+6 pizzas 2 chambers 1080x720x140h mm

Description

Electric 2-chamber oven with a capacity of 6+6 pizzas that guarantees optimal cooking thanks to its excellent features. The oven is equipped with a special heat seal for optimal insulation and allows two different operating temperatures to be calibrated separately. It is equipped with a refractory stone cooking floor, evaporated rock wool insulation, armoured heating elements, internal lighting, a stainless steel handle and a knob for smoke exhaust. The door is 4 cm thick with double glass. The product is made of stainless steel and pre-painted sheet metal. Carefully designed and characterised by the top cap. This version offers the advantage of a door with large glass to allow maximum visibility inside.
