100x70x95h cm stainless steel table on legs with bottom surface and splashback EC

Description

Sturdiness, durability and versatility. Ristoattrezzature's stainless steel table on legs with base and splashback is the ideal furnishing accessory to complete the look of your restaurant. An indispensable and very practical professional tool. Use the top shelf to work your dough and store your equipment on the bottom shelf. Particularly suitable for pastry shops, pizzerias, butcher's shops, dairies, ice cream parlours and kitchen workshops, this catering equipment lends itself to a variety of uses. Browse our online catalogue and discover the models and sizes available. Design and function The stainless steel table on legs with base and splashback for pastries has minimalist and essential lines: able to adapt easily to any environment. The robust construction and the choice of quality materials make Ristoattrezzature's table an optimal choice. The AISI 304 stainless steel meets the highest safety standards: especially suitable for working in contact with food and resistant to chemical agents, it finds its ideal use in catering. The worktop is also reinforced with a water-repellent bilaminate chipboard panel, making it safe and performing. Large and spacious, the table has square tube legs and adjustable feet to adapt to the needs of the individual worker. The external dimensions are 1000x700x950 mm. The height of the splashback is 100 mm: essential to prevent dirt from reaching the walls of your kitchen. Cleaning

and maintenance The innovative construction systems used in the construction of the table guarantee fast cleaning and easy maintenance. The stainless steel table on legs with base and splashback made entirely of AISI 304 stainless steel is a guarantee of hygiene durability resistance. To avoid contamination between foodstuffs, we recommend correct and regular cleaning after each use. Simply use a soft cloth, warm water and mild detergents. To remove scale or degrease, you can use green products and make a solution of equal parts water and vinegar. Why it is the right product for you The stainless steel table on legs with a base and splashback for restaurants is an indispensable element in both small and medium to large professional kitchens. Perfect for your restaurant, pizzeria or pastry shop, it completes your line-up by adapting in an exceptionally versatile manner to your work requirements. Safe, reliable and practical, it also guarantees excellent value for money. Take a look at the online catalogue and choose from the available options to accessorize it according to your professional needs. Read the technical data sheet for product details.
