

Cod: 101652151

Refrigerated counter display case 110,4x39x28,7h cm with smooth top, straight glass panes and built-in motor

Description

Counter-top refrigerated display case with straight glass panes and incorporated motor

- Strong points:

- Elegant design and perfect finish
- LED lighting
- Large tempered glass top that can be used as a worktop if desired. Width 29 cm.
- Electronic and digital temperature control and defrosting.
- Removable sliding rear doors for easy cleaning.
- Stainless steel tray with inlaid bottom
- Hermetic compressor with ventilated condenser.
- High-quality components: The display case has a refrigeration unit included that generates a working temperature of + 2 / + 6 °C with cold plate evaporator and copper tube.

PLEASE NOTE: The pictures refer to the version with a display surface with trays, but the product in question has a smooth display surface, as described.
