

Cod: 3360

Manual potato cutter

Description

Manual potato cutter ideal for restaurants and canteens. Stainless light alloy body: light and resistant. Clean and even cut, without breakage or waste. Thicknesses of 8, 10 or 12 mm. using interchangeable potato cutting sets. The press removes the cut potatoes by completely freeing the filter. The elongated lever ensures optimum output with the same amount of effort.

Comfortable operation: The springs are placed at the back, thus leaving the filter completely free. They are extremely flexible compensating springs that help to lift the ejector press. Suction cups for securing the machine on the stand. Easy to clean. Optional accessories: potato cutting set of different sizes, container for collecting the cut potatoes.

Product to be supplied optionally with 8 x 8 mm potato cutting set - 10 x 10 mm potato cutting set - 12 x 12 mm potato cutting set.

NB: product payable only by bank transfer, paypal or credit card.
