

Cod: 10279018004

**Kitchen scale max. capacity 2 kg division 1g**

## Description

This scale is equipped with a plastic bowl, but any bowl can be used thanks to the tare function. This function also allows you to add additional ingredients and weigh them separately. The digital LCD display makes it easy to read the weight. The kitchen scale can be switched from pounds to grams. The maximum weighing capacity is 2 kg. The scale runs on 4 AA batteries (not included).

N.B. This scale is not approved.

**NB: Non-professional equipment.**
