**Vertical refrigerated beverage display cabinet 1 glass door white +0 +10 °C
238 lt 55,5x54x178h cm**

Description

Choose to complete the furnishing of your venue with the right professional equipment. Ristoattrezzature's **vertical refrigerated 1-door glass drinks display** cabinet **combines the convenience of chilling and storing drinks and food with the advantage of displaying products** through the panoramic glass.

The compact, versatile design suitable for every situation makes our refrigerator ideal for the catering sector: bars, restaurants, bakeries and fast food outlets.

The **vertical refrigerated 1-door glass drinks display refrigerator** for bars is designed for intensive use: **external structure in white PCM, internal structure in white pre-painted aluminium, it is equipped with a glass door with double chamber and has an internal lining on the sides.** Built-in motor, 2 front wheels, 2 stainless steel rear feet and adjustable internal shelves complete the look.

Design and operation

The **1-door upright refrigerated glass drinks display cabinet** features an **exclusive, minimalist and modern design** and is equipped with a key lock. Choose whether to use it as a refrigerated back counter or as a refrigerated display case.

The **external dimensions are 555x540x1780h mm for a total capacity of 280 litres**. Our vertical refrigerated beverage display cabinet with 1 glass door** is ideal to complete your bar's furnishings.

Great care and attention is paid to the choice of materials: synonymous with guarantee and quality.

- **Stainless steel:** to guarantee resistance and durability - **Hermetically sealed doors:** for optimal food preservation - **Internal LED lighting** for maximum efficiency and low consumption - **Mechanical digital thermostat.**

Refrigeration is **static** and cold air is therefore evenly distributed inside the refrigerator from top to bottom. The **operating temperature is positive: between +0° and +10 °C.**

Cleaning and maintenance

Choose the **practicality of our upright refrigerated 1-door glass drinks cabinet** and take care of it in no time with proper cleaning and maintenance. **Before carrying out any operations, make sure to isolate the appliance from the electricity** supply by turning the main switch to OFF.

Then **proceed by removing the interior shelves**, and for cleaning choose natural substances and avoid aggressive or toxic ones. The **rounded internal corners and magnetic seals** are easy to clean and replace. Finally, the condenser is maintenance-free.

Why it is the right product for you

Buying the 1-door upright refrigerated glass drinks cabinet means choosing the **quality, safety and practicality**** of a professional product with low energy consumption. Cut your utility bills and maintain a lower environmental impact.

The refrigerant gases used **R600aR134a** are of the latest generation, do not harm the atmosphere and increase refrigeration efficiency.

Finally, the quality-price ratio is excellent, capable of satisfying the needs of the end user. **Discover all the technical features on our website** and select the available options.
