Stainless steel electric rice cooker 1.8 lt

Description

Prepare perfect rice every time: it sounds easy enough, but unfortunately it is not always as it seems and the result is burnt or undercooked rice. No more bad rice with this rice cooker. With the large capacity of 1.8 litres you can cook up to 10 portions of rice at the same time. Enough for your whole family. A rice cooker that makes cooking rice a breeze. Simply add the rice and the right amount of water to the inner pot. You will never get burnt rice again, thanks to the automatic switch-off when the rice is cooked enough and all the water has been absorbed. The rice cooker also has a keep-warm function that allows you to have hot, fluffy rice for hours. Although the name suggests otherwise, the rice cooker can be used for much more than just rice. Make yourself a delicious and healthy bowl of porridge in the morning and use the rice cooker at lunchtime to prepare an omelette or omelet. With the rice cooker you can also prepare a delicious and fluffy cheesecake or chocolate cake. The stainless steel design not only makes the rice cooker sleek and modern, but also heat-resistant. For even more safety, the rice cooker automatically switches off when it reaches the right temperature. The removable inner pot includes a non-stick coating that is dishwasher safe and easy to clean. Package contents:

Rice cooker, Spoon, Spatula, Measuring cup
