**Saladette refrigerator counter with stainless steel top 1 door and 2 drawers  
90x70x87.6h cm**

## Description

The Ristoattrezzature saladette refrigerator counter is made of **stainless steel and galvanised steel**. This equipment for professional kitchens is designed to properly store fresh, freshly prepared dishes.

Not only restaurants but also **delicatessens, canteens, supermarkets and fast food** outlets can benefit from the use of a **saladette counter**.

Buy it also for your outdoor catering business, this equipment is **also optimal for catering services**.

## Design and operation

The saladette refrigeration counter is **refrigerated equipment intended for the positive temperature storage of raw materials and the display of prepared foods**.

The design of our refrigerated counter is linear and highly professional. It **consists of a wide, groove-free work surface and 1 door and 2 drawers.**

Drawers and door are equipped with an **ergonomic handle** for a firm and secure grip. The automatic closure prevents leakage and ensures the freshness of the food.

On the same side are the **power buttons and the display of the digital thermostat**, which is located at the bottom. Through this device it will always be possible to keep the temperature of the refrigerated saladette counter under control.

**The machine measures 900x700x876h mm** for a capacity of **230 litres** and is entirely made of **stainless steel.**

The **motor is incorporated** and **refrigeration is of the static type.** It is generated by a plate placed inside the chamber and propagated progressively by radiation.

In order to equalise the temperature inside the chamber, and guarantee each food the same freshness, the refrigeration counter also employs a fan.

The temperature is positive and can be adjusted by thermostat between + **2° C and + 8° C.**

The power supply is electrical with a **frequency of 50 Hz** and a power of **0.17 kW** and a **voltage of 230 V**

## **Cleaning and maintenance**

The saladette refrigerator counter **ensures cleanliness and hygiene thanks to its clean design and stainless steel construction.** An abrasion-resistant and non-absorbent material that allows immediate and effective sanitisation.

Not only that, the **rounded corners** on the underside of the machine allow for easy cleaning. The saladette refrigerator counter is designed so that dirt is washed away completely and in just a few steps.

Regular cleaning of the equipment ensures maximum performance and durability. To do this, only **non-aggressive and acid-free products** must be used.

Stainless steel has a protective film that would otherwise be irreparably damaged. **Abrasive sponges should also be avoided.**

## **Why it's the right product for you**

**Practical and compact**, our saladette counter has a small footprint and is easy to move. Its capacity satisfies medium-sized businesses and the storage compartments are spacious and easy to open.

One of the biggest advantages of buying our saladette is definitely the consumption. The equipment is in fact classified in **energy class C** with **830 Kwh of annual consumption.**

Finally, its **sustainability** makes it an environmentally friendly product thanks to the refrigerant gas used: **R600A.**

This is a **100% natural** source that respects the ozone layer but also ensures optimal thermodynamic performance.

## Dimensions

Dimensioni esterne	900x700x876 mm
