Practicality, versatility and beauty: its strong points. Choose the ideal piece of furniture for your catering business. The vertical refrigerated 1-door glass drinks display cabinet is particularly suitable for bars, pastry shops, pizzerias and restaurants. Select the model best suited to your professional needs. Design and operation The design of the upright 1-door glass refrigerated drinks display cabinet for restaurants is very clean and linear. It takes up very little space and has a large capacity to guarantee excellent performance at all times. Ristoattrezzature offers practical and aesthetically appealing models. From a structural point of view, the vertical refrigerated drinks display cabinet 1 glass door is made of white painted galvanised sheet metal and the door is in white plastic and tempered glass. The external dimensions are 450x595x2007 mm for a total capacity of 268 litres. The power supply is electric with a power rating of 0.25 kW. The refrigerant gas used is of natural origin, performing and able to guarantee contained costs: we are talking about R600A gas. The motor is incorporated. Easily set the operating temperature and keep an

eye on it via the front-mounted display. Choose the ideal temperature for your drinks between +1 +9 °C. The Ristoattrezzature fridge is easy to install and move wherever you want. Cleaning and maintenance A key step in ensuring the longevity and optimal functioning of your professional equipment is to ensure constant cleaning. The vertical refrigerated 1-door glass drinks cabinet for pizzerias is quick and easy to clean. First make sure to switch off the refrigerator and unplug it from the power supply, then proceed by emptying each shelf and finally remove the shelves. The rounded corners will make it easier to reach every space. It is recommended to clean the surface, both inside and out, with a soft cloth and mild detergent and avoid using abrasive sponges and harsh chemicals. Remove the magnetic seals, clean them with a soft cloth and, finally, let them dry properly. Why it's the right product for you The vertical refrigerated 1-door glass drinks display cabinet for ice cream parlours is the ideal solution to complete the furnishings of your establishment in a functional and very practical manner. Choose the model tailor-made for you from the various available in the catalogue and you will have a product reliable practical efficient. The refrigerant gas used is type R600: good thermodynamic performance and contained costs. Finally, the quality-price ratio is excellent. Browse the Ristoattrezzature.com online catalogue and choose the available options.
