

Cod: 1058527

Table-top steel pizza roller for pizzas Ø 14-30 cm

Description

The pizza roller gives great time savings and, above all, no specialised personnel are required. It has been designed and built to solve the problems of forming discs for the preparation of pizzas, bread, focaccia, pies, etc. The machine works cold and does not alter the characteristics of the dough. Selecting the thicknesses for the final dough is a quick and intuitive operation. The thickness between the rollers is adjustable from 0 to 5 mm.

Dimensions

Diametro pizza	300 mm
Dimensioni esterne	475x375x660 mm

Dimensioni imballo

740x530x500 mm

Technical data

Alimentazione	Electric
Peso	28 kg
Peso lordo	35 kg
Potenza Elettrica	0.26 kW
Quantità pasta	0.210 kg
Voltaggio	230 V
