

Cod: 105842478

Professional ventilated stainless steel gas tunnel pizza oven with digital control panel chamber 80x110x10h cm

Description

The stainless steel tunnel kiln is equipped with every device necessary to operate with maximum safety, the display communicates any anomaly and manages the kiln shutdown autonomously. Its gas supply allows you to calibrate the operating temperature, which can quickly reach 350°C. The liquid crystal display is simple and intuitive and, with a few simple steps, allows you to choose the temperature and belt speed. In addition, you will be able to set 6 different utilisation programmes that you can recall with a simple click, for easy operation. Maintenance and cleaning are quick and easy.

Dimensions
