

Cod: 9933038

Manufacturer Full cube ice maker production 68 kg/24h capacity 12 kg

Description

Superior Quality: The ice cube maker adopts the visualised design, allowing a direct view of the interior. The double-layer foam insulation layer effectively prevents ice from melting after a power failure. An imported compressor is adopted for high power. Improved performance: with the ice production capacity of 68 kg (150 lbs) / 24 hours and the ice storage capacity of 8-26 kg. The 45-piece multi-grid ice tray for high efficiency, with ice cube dimensions of 0.9 "x0.9" x0.9 "(22x22x22mm). The thickness of the ice cubes can be adjusted as required. Multiple Functions: the ice maker adopts the reservation function for scheduled shutdown and start-up, the one-button cleaning function for labour-saving cleaning, and the NANO blue light for illumination and sterilisation. Effective Protection: the automatic protection system effectively prevents accidents. The machine will automatically stop when the ice is full or when the water is low. Wide Use: the industrial ice machine works perfectly for applications including cafeterias, party gatherings, homes, restaurants, bars, hotels, grocery shops, etc. Package Contents: 1 x Commercial Ice Machine 1 x Ice spoon 1 x Water filter 2 x Water hoses (inlet and outlet) 1 x User's manual

Dimensions

Dimensioni esterne	360x430x760 mm
