Stainless steel gas pasta cooker 2 basins 40+40 lt 80x90x85h cm

Description

Stainless steel frame. Knobs made of athermic material with functional serigraphy on edge. Heating by means of tubular burner with stabilised stainless steel flame, with thermocouple safety valve and protected pilot flame. Powerful and quick intervention of heating elements to prevent the temperature from dropping when the product is put into the tank. Equipped with a safety gas cock that allows the power to be adjusted from maximum to minimum. Safety guaranteed by a thermocouple kept active by the pilot burner flame. AISI 304 stainless steel worktop with rounded edges for easy cleaning. Stainless steel front, side and rear panelling. Cooking tanks(40 litre capacity each) made of cold-forged AISI 316 stainless steel, resistant to salt water and starch, with touch zone and starch evacuation, drain hole and small perforated stainless steel front surface for supporting baskets. Tap for loading and topping up water positioned on the dashboard. Tank drain positioned inside the machine to prevent accidental opening. Drain fitting made entirely of AISI 316 stainless steel. Platen finish with laser cut to ensure a "head-to-head" coupling of the tops and binding of the tops to each other. Tested with methane or LPG gas according to user requirements. Height-adjustable stainless steel feet.

Dimensions

Dimensioni esterne	800x900x850 mm
