

Cod: 11175

Professional dishwasher with three-phase Wi-Fi connection basket 50x50 cm 10.1 Kw

Description

Professional dishwasher with Wi-Fi connection with sophisticated design, suitable for chefs looking for high washing performance. AISI 304 stainless steel construction. Stepped tank with rounded edges that ensures maximum hygiene by preventing stagnation of dirt and water, upper and lower rotating washing lances in stainless steel with special nozzle configuration that makes them unobstructable, double surface steel filters differentiated in the tank with separate basket for collecting solid waste, temperature display, possibility of modifying work cycle parameters. Ergonomically positioned control panel for immediate operation and display of the various work phases and operating temperatures. The programmable system ensures that rinsing takes place at a water temperature of 85 °C to guarantee a reduction in the bacterial load. Height-adjustable feet, spring-loaded hood lifting system, start of operating cycle with hood closure, machine operation interruption device for accidental opening of the hood during the working cycle. Standard equipment includes a rinse aid dispenser to ensure excellent drying results, provision for detergent dispenser, provision for drain pump. Wide range of optional extras available. One basket dishes and one basket cups included.
