Gas countertop fry top 1/2 smooth 1/2 grooved plate 8 kW 60x60x28h cm

Description

Counter-top gas fry top, stainless steel structure. Thermosetting plastic knobs.

Rapid temperature rise and heat retention by means of two high-efficiency stabilised flame burners, suitable for working at high temperatures. Ignition by means of a spark train with electrical supply 230V 1 phase + neutral.

Thick cooking plate with rounded edges and welded splash guard for easy cleaning. Sloping cooking plate facing the grease drain hole, which is connected to a container below the cooking surface. **Equipped with a grease drain drawer as standard.**

Cooking plate 1/2 smooth and 1/2 ribbed.

Equipped with a safety gas tap that allows the flame to be adjusted from maximum to minimum and enables the frytop to reach 300°C. Safety guaranteed by a thermocouple kept active by the burner flame.

Laser-cut top finish to ensure a "head-to-toe" combination of tops and binding of tops to each other.

Tested with methane or LPG gas according to user requirements.
