Countertop electric fry top smooth plate 7.2 kW 60x60x28h cm

Description

Electric countertop fry top, stainless steel construction. Knobs made of athermal material with functional screen printing on the edge.

Heating by means of **tubular heating elements with stainless steel sheath** placed in direct contact with the cooking plate. Temperature regulation of the hotplate by means of a thermostat. Working temperatures between 90°C and 300°C. Safety thermostat with manual reset against equipment malfunction.

Single large, thick plate machined with a **smooth finish** for optimum heat transmission. **Welded splash guard**. The plate is mounted on the top with a **slight inclination** to allow grease to flow towards the drain.

Smooth cooking plate.

AISI 304 stainless steel worktop with rounded edges with large radius for easy cleaning. Stainless steel front, side and rear panelling.

Large hole on the cooking surface to drain grease into a container below the cooking surface.
Grease collection container **supplied**.

Laser-cut top finish to ensure a "head-to-toe" connection of the tops and binding of the tops to each other.

Dimensions

Dimensioni esterne	600x600x280 mm
