

Cod: 111900021612842

Table-top electric griddle fry top 3.6 kW 30x60x28h cm

Description

Electric countertop fry top, stainless steel construction. Knobs made of athermal material with functional screen printing on the edge.

Heating by means of **tubular heating elements with stainless steel sheath** placed in direct contact with the cooking plate. Temperature regulation of the hotplate by means of a thermostat. Working temperatures between 90°C and 300°C. Safety thermostat with manual reset against equipment malfunction.

Single large, thick plate machined with a smooth finish for optimum heat transmission. **Welded splash guard**. The geometry of the groove in the grooved plate is such that it can be cleaned with the smooth scraper used for cutting. The plate is mounted on the worktop with a **slight inclination** to allow grease to flow towards the drain.

Ribbed cooking plate.

AISI 304 stainless steel worktop with rounded edges with large radius for easy cleaning. Stainless

steel front, side and rear panelling.

Large hole on the cooking surface to drain grease into a container below the cooking surface.
Grease collection container **supplied**.

Laser-cut top finish to ensure a "head-to-toe" connection of the tops and binding of the tops to each other.
