

Cod: 11193189004

Spiral mixer with tilting head and removable bowl 10 speeds 6 kg single-phase

Description

Spiral kneading machine 10 speeds ideal for making different types of dough, especially suitable for hard or soft dough such as bread, pizza, biscuits, piada etc..

Designed and built like large kneading machines, this model is used for both domestic and professional use. Thanks to its extremely accurate and reliable mechanics, the machine is silent, with low energy consumption and requires no maintenance.

The possibility of lifting the kneading head and removing the bowl makes this machine easy to clean the inside of the bowl and hook, which is usually quite difficult, and allows the dough to be transported directly into the container to be kneaded wherever you want.
