## 8+8 litre counter-top gas fryer 2 basins 13.4 kW

### Description

Counter-top gas fryer, stainless steel construction. Knobs made of thermosetting plastic material.

Oil heating by **stainless steel burners equipped with an in-tank heat exchanger**.

**Two tanks of 8 litres each**, equipped with a safety gas valve, allowing temperature regulation between 100°C and 190°C. Safety ensured by a thermocouple kept active by the pilot burner flame and a manually reset safety thermostat.

**Stainless steel tanks** and vessel with rounded edges sloping towards the drain hole. **Moulded worktop and tanks** for easy cleaning.

Drain valve with handle made of athermic material and safety closure, located on the front of the equipment.

Steel baskets coated with a layer of protective material **supplied**.

Tested with methane or LPG gas according to user requirements.

### Dimensions
