## Bench-top electric fryer 10 litres 1 basin three-phase

### Description

Electric counter-top fryer, stainless steel construction. Knobs made of athermic material with functional serigraphy on the edge.

Oil heating by means of **fixed stainless steel heating elements** immersed in the oil with free central area for easy cleaning. Safety thermostat with manual reset.

**10 litre tank** equipped with thermostat, allowing temperature regulation between 100°C and 190°C.

Stainless steel tank and bowl with rounded edges sloping towards the drain hole.

Moulded worktop and basin for easy cleaning. Stainless steel front, side and rear panelling.

Steel basket lined with a layer of protective material **supplied**.

**Drainvalve with handle made of athermic material and safety lock**, located on the front of the

equipment.

Laser-cut top finish to ensure a "head-to-head" matching of tops and binding of tops to each other.
