

Cod: 111990500032842

Bench-top electric pasta cooker, capacity 12 litres, three-phase 30x60x28h cm

Description

Electric counter-top pasta cooker, stainless steel structure. Knobs made of athermic material with functional screen printing on the edge.

Heating by means of a pair of **heating elements** completely immersed in the cooking water to guarantee speed of temperature setting and durability against salt and starch aggression. Safety thermostat with manual reset against dry running. Control with energy regulator to adjust the ignition time of the heating elements according to the work load.

Moulded AISI 304 stainless steel worktop with rounded edges with large radius for easy cleaning. Front, side and rear panelling in stainless steel.

Cooking vat made of AISI 316 cold-pressed stainless steel, resistant to salt water and starch, with large radii, grazing and starch evacuation area, drain hole and small perforated stainless steel front surface for supporting baskets.

Tap for loading and topping up water positioned on the dashboard. Elliptical-shaped AISI 304 handles. Tank drain positioned on the dashboard to prevent accidental opening. Drain connection made entirely of AISI 316 stainless steel.

Laser-cut top finish to guarantee a "head-to-head" coupling of tops and binding of tops to each other.

Dimensions

Dimensioni esterne	300x600x280 mm
