Table-top electric bain-marie with tap GN 3/4 single-phase 1 kW 30x60x28h cm

Description

Bench-top electric bain-marie, stainless steel frame. Knobs made of athermal material with functional screen printing on the edge.

Heating by means of **contact** heating elements to allow heat exchange only to the bottom of the tank and save energy. Manual reset safety thermostat to protect the heating element. Control with ON OFF switch and regulating thermostat between 30°C and 90°C with bulb immersed in the cooking tank.

AISI 304 stainless steel work surface with rounded edges with large radius for easy cleaning. Stainless steel front, side and rear panelling.

AISI 304 stainless steel basin with drainage hole, suitable for bowls **up to 150 mm high** and multiple container capacity **up to 3/4 GN**.

Elliptical-shaped AISI 304 handles. Bowl drain positioned on the dashboard and operated by a

lever.

Laser-cut top finish to ensure a "head-to-head" matching of tops and binding of tops to each other.
