6-burner gas cooker with pilot flame and static electric oven 120x70x85h cm

Description

6-burner gas cooker with static electric oven, stainless steel construction. Moulded, double-walled oven door and sturdy handle. Thermosetting plastic knobs. Heating by means of watertight burners with stabilised flame and superimposed crown with different power ratings (6.2 kw and 8.5 kw). Each burner is equipped with a safety gas cock that allows the power to be adjusted from maximum to minimum. Safety guaranteed by a thermocouple kept active by the pilot burner flame. Floor grates and burners made of RAAF matt enamelled cast iron resistant to alkalis, acids and fire. Floor grates positioned on a moulded basin with rounded edges to ensure easy cleaning and protect against overflowing liquids. Moulded basins with rounded stainless steel edges located under the burners and easily removable for cleaning. Static 2/1 GN electric oven and open compartment. Removable stainless steel oven rack. Thick steel oven floor reinforced with a series of ribs. Insulation of baking chamber and oven door ensured by a layer of ceramic fibre resistant to high temperatures. Heating by means of special high-temperature-resistant steel heating elements placed under the sole and in the baking chamber ceiling. Equipped with a thermostat that allows the temperature to be adjusted between 120°C and 300°C. Safety thermostat with manual reset against overheating. Laser-cut top finish to guarantee a "head-to-head" coupling of the tops and binding of the tops to each other. Height-adjustable stainless steel

feet.

Dimensions

Dimensioni esterne	1200x700x850 mm
