Electric blender Pro with glass carafe 1.75 l 1.4 kW

Description

The luxurious and powerful blender is ideal for anyone who wants to quickly prepare smoothies, soups or healthy sauces. The powerful 1400 W blender is equipped with a continuous speed selector, 3 programmes and an pulse function. Thanks to its glass carafe, removable parts and automatic cleaning function, the blender is very easy to clean.

Easily choose the best programme

The blender can blend, whip, puree, chop, grind and mix. You can blend fresh vegetables and easily create healthy snacks for your child, make cocktails or milkshakes. To make things even easier, the blender also has a continuous speed selector and 3 pre-programmed settings to make smoothies or chop ice. The pulse function gives you that little bit of extra power that you may sometimes need when chunks get stuck or you want to make a smoothie faster.

Stainless steel blade block with 6 blades

Thanks to the super strong blade block with 6 stainless steel blades, hard fruits and vegetables can also be chopped directly in the blender. Add all the ingredients and the blender will chop, grind and blend everything immediately. Even chopping ice will be no problem thanks to the

powerful blade block and 1400 Watt motor.

Luxurious stainless steel exterior and glass carafe

The product has a glass carafe with a capacity of 1.75 litres. Large enough for 4 hearty smoothies or soups for the whole family. The knob will allow you to easily select the right speed. Want to add something? You can do this effortlessly thanks to the practical opening in the lid.

Easy to clean

Thanks to the automatic cleaning function, the blender is really easy to clean. By adding a drop of detergent, the carafe and blades are thoroughly cleaned with one press of the button. The glass carafe is dishwasher-safe and easy to clean.

NB: Non-professional equipment.
