

Cod: 112350072849

Fry Top Electric grill smooth plate 2 kW 58x28x10h cm

Description

The hotplate has an output of 2000 W, which allows you to quickly reach the desired temperature. The thermostat makes it easy to set the right temperature. Thanks to the non-stick coating and dishwasher-safe parts, the hotplate is easy to clean.

Practical design

The hotplate has a practical design that makes it very comfortable to use. The hotplate has cool-touch handles that you can safely touch at all times. With a cooking surface of 46 x 26 cm, the hotplate offers plenty of space. In addition, non-slip feet ensure that the griddle remains stable on the table.

Healthier cooking

The hotplate is equipped with an integrated grease collection system that automatically channels the grease into the grease tray. In this way, you get a healthier cooking result that is also very crispy. The griddle comes with a removable power cord with thermostat, which allows you to set the ideal temperature for the dish to be prepared. The high power of 2000 W allows the griddle to heat up quickly and adjust the temperature precisely.

Easy to clean

The hotplate is very easy to clean. The non-stick coating allows you to clean the griddle in a jiffy, while also ensuring that food does not stick to it. In addition, the separate parts are also dishwasher-safe. Thus cleaning the griddle becomes really easy.

NB: Non-professional equipment.
