All-electric cooker with ventilated electric oven 12.65 kW 80x70x85h cm

Description

All-electric cooker with ventilated electric oven, stainless steel construction. Knobs made of athermal material with functional serigraphy on edge. Moulded, double-walled oven door and elliptical-shaped AISI 304 handle. Thick cooking surface with rounded edges made of special high-temperature resistant steel. Four independent cooking zones, each equipped with a thermostat that allows power adjustment from maximum to minimum. AISI 304 stainless steel worktop for easy cleaning. Front cover in AISI 304 stainless steel. Ventilated electric oven 1/1 GN. Thick steel oven floor reinforced with a series of ribs. Removable stainless steel oven grid. Insulation of baking chamber and oven door ensured by a layer of ceramic fibre resistant to high temperatures. Oven heating by means of special high-temperature-resistant steel heating elements placed under the sole and in the baking chamber ceiling. Air movement guaranteed by a stainless steel fan driven by a powerful electric motor. Equipped with a thermostat that allows the temperature to be adjusted between 90°C and 300°C. Safety thermostat with manual reset against overheating. Possibility of selecting various types of heating, both static and ventilated, both diffusive heating from below and global heating. Laser-cut top finish to ensure "head-to-toe" matching of tops and binding of tops to each other. Height-adjustable stainless steel feet.

Dimensions

Dimensioni esterne	800x700x850 mm
--------------------	----------------

Technical data

Alimentazione	Electric
Peso	147 kg
Potenza Forno	3.65 kW
Temperatura d'esercizio	+90 +300 °C
Voltaggio	400 V

Standard equipment

In dotazione	1 griglia forno
