Electric countertop fry top smooth lowered plate 5 Kw 40x70x25h cm

Description

Electric countertop fry top with smooth lowered plate, stainless steel frame. Knobs made of athermal material with functional screen printing on the edge.

Heating by means of **radiant heating elements** placed below the cooking plate. Thermostat for adjusting the hotplate temperature between 120°C and 320°C. Safety thermostat with manual reset.

Single large-size lowered plate made of special stainless steel and machined with a smooth finish that allows excellent heat transmission in terms of heating and **polished** to a **mirror** finish to ensure non-stick properties and speedy cleaning in compliance with current regulations.

Smooth plate.

Sloping work surface facing the grease drain hole. **Large hole on the cooking surface** for draining grease into a **2.9 litre capacity container placed** underneath the cooking surface itself and supplied as **standard**.

Moulded AISI 304 stainless steel work surface with rounded edges for easy cleaning. Stainless steel front, side and rear panelling.

Teflon cap to plug the drain for any oil film cooking available **on request**.

Laser-cut top finish to ensure a "head-to-head" combination of tops and binding of tops to each other.
