Electric fry top with open compartment lowered plate 1/2 smooth 1/2 grooved 10 kW 80x70x85h cm

Description

Electric fry top with open compartment, stainless steel construction. Knobs made of athermal material with functional serigraphy on the edge.

Heating by means of **radiant heating elements** placed below the cooking plate. Thermostat for adjusting the hotplate temperature between 120°C and 320°C. Safety thermostat with manual reset.

Single, large-size lowered cooking plate made of special stainless steel that allows excellent heat transmission in terms of heating and is **mirror-polished** to ensure non-stick properties and speedy cleaning in compliance with current regulations.

Two independent cooking zones, each with temperature adjustment controls.

Plate 1/2 smooth and 1/2 ribbed.

Work surface inclined and facing the fat drain hole. **Large hole on the cooking surface** for draining fat into a **2.9 litre capacity container** placed below the cooking surface itself and supplied with the **appliance**.

Moulded AISI 304 stainless steel work surface with rounded edges for easy cleaning. Stainless steel front, side and rear panelling.

Teflon cap to plug the drain for any oil film cooking available **on request**.

Laser-cut top finish to ensure "head-to-toe" matching of tops and binding of tops to each other.

Height-adjustable stainless steel feet.
