**Electric bain-marie on open compartment 1 basin gn 2/1 power 2 Kw
80x70x85h cm**

Description

Electric bain-marie on open compartment, stainless steel construction. Knobs made of athermal material with functional serigraphy on edge. Heating by means of contact heating elements to allow heat exchange only to the bottom of the basin and to save energy. Manually reset safety thermostat to protect the heating element. Control with ON OFF switch and thermostat for regulation between 30°C and 90°C with bulb immersed in the cooking bowl. AISI 304 stainless steel worktop with rounded edges with large radius for easy cleaning. Stainless steel front, side and rear panelling. Cold-forged AISI 304 stainless steel basin with drain hole, suitable for basins with a maximum height of 150 mm and multiple container capacity up to 2/1 GN. Water filling and topping-up tap located on the dashboard. Elliptical-shaped AISI 304 handles. Bowl drain positioned on the dashboard and operated by a lever. Laser-cut top finish to ensure "head-to-toe" matching of tops and binding of tops to each other. Height-adjustable stainless steel feet.

Dimensions

Dimensioni esterne	800x700x850 mm
